New genetic tests for personalized treatment in aesthetic medicine

Davide Patroncini

Volumetric jet remodeling, my approach to the method

Giuseppe Maria Izzo

Innovative trends in Aesthetic Medicine

A new transdermal system without needles in association with TCA-H₂O₂, in the treatment of many skin blemishes.

Francesco Paolo Alberico

Final results of a study evaluating the efficacy & safety of mixture of amino acids and sodium hyaluronate in combined therapy of skin aging treatment

Krzysztof Kaczynski

A split-face retrospective study comparing a new cosmetic formulation and Prp on reducing superficial periocular wrinkles and restore dermal matrix.

Antonino Araco

The skin patting technology for the biostimulation of the aged and dystrophic tissues

Stefano Toschi

Aim of this study is to evaluate the efficacy of this innovative electronic, cordless, motorized system device for the injection of any kind of Hyaluronic Acids (HA).

Roberto Dell'Avanzato

Randomized observational study for the evaluation of the effectiveness of specific dietary supplementation with shark cartilage supplement on hair follicle involution in male and female androgenetic alopecia

Elisabetta Fulgione

Use of synthesized peptides to improve skin physiological parameters: a 30-day open observational clinical trial
Neil Fisher

Aesthetic Medicine and its forms: the gender of beauty

The study of male beauty and the main therapeutic principles in Aesthetic Medicine
Beatriz Molina

Non surgical lifting in male and female patients: indications and limits
Alfonso Carvajal Gomez

Lips correction in male and female
Sofia Ruiz Del Cueto

Aesthetic Medicine: case report - 1

A case report of deep skin burns following Radio Frequency Assisted Liposculpting .
Antonino Araco

A case of Lupus erythematosus arising in correspondence of the red color of a tattoo
Lia Pirrotta

Neuromodulation: top personal experience. The experts answer 5 questions

Paola Rosalba Russo

Arm rejuvenation: surgical approach
Loredana Cavallieri

DAY 1

G. B. ROBUTTI ROOM

Gender-specific Aesthetic Medicine

What Men Want, 7 Pearls to Grow Your Aesthetic Practice

Cheryl Whitman

Facial volumizing with hyaluronic acid dermal fillers and multilayer technique for male and female patients

Paola Molinari

Aesthetics for Men: dedicated filler?

George Virginio Oskarbski

Feminization of the face

Erminio Mastroluca

Bar-Code: Why mainly in the woman? Personal classification and therapeutic approach

Andrea Alessandrini

Biostimulation and chemical biostructuring

Restructuring and rebalancing the extracellular matrix: functional biostimulation for healthy and beautiful skin

Alessandra Camporese

Micro: Aesthetic Medicine in small doses

Micro nutrition

Gabriele Bellomo

Skin and micro-therapy

Massimo Mammucari

Microbotox: scientific truth or fake news?

Emanuele Bartoletti

Small surface doses of Hyaluronic Acid using micro needles

Luciano Lanfranchi

Hyaluronic acid dermal fillers and lips: less is more

Giuseppe Sito

The transition from needling to automated micro-needling

Andrew R. Christie

Rhinofillers: indications and limits

Diagnostic assesement in medical rhinoplasty

Angela Faga

Non Surgical Rhinoplasty using threads, cross shape technique

Ahmed Habiba

MesoRhinoFiller Intradermic approach for non-surgical, post surgical and post traumatic nasal reshaping

Francesco Romeo

Profiloplasty in one session using HA Filler with HICE Technology

Luca Di Tommaso Di Giannantonio

Aesthetic Medicine in transgender patients

Aesthetic Medicine in transgender patients

Maddalena Mosconi

Male vs Female : Beauty Peculiarity

Emanuele Bartoletti

Hormone therapies in “gender dysphoria”

Facial feminization surgery in MtF transsexual patients

Giovanni Zabbia

Aesthetic medicine in gender dysphoria: body feminization . A Case report.

Karin Saccomanno

Aesthetic Gender

Erminio Mastroluca

Body feminisation in transgender patients

Foued Hamza

Skin ulcerative complications after aesthetic treatments (IAWC)

2nd-degree and 3rd-degree burns after peeling and ablative lasers

Diego Ribuffo

Complicated surgical wounds in aesthetic surgery

Franco Bassetto

Functional and aesthetic complications after using biopolymers for Body remodeling.

Claudio Ligresti

Medical and legal aspects and litigation management

Massimo Navissano

Focus on lips - 1

Local Anesthetic Infiltration Before Lip Filler Ha Injection

Romualdo Del Buono

B.D.M. (biostimulation, definition and maintenance) lips. The new approach to lip redefinition and shape keeping

Marco Enzani

3D lips with the 3 vectors technique

Tiziana Manenti

Lips The Art Of Simplicity: Personal Approach On Treatment Of Natural Lips. Two Years Of Experience.

Massimo Vitale

Analysis Of Philtral-Labial Ratio For The Harmonic Correction Of The Lips. Synergic Use Of Suspension Threads And Hyluronic Acid Filler

Annalisa Calisti

DAY 1

S. B. CURRI ROOM

Presentation of the theses of the italian EFAMS Schools of Aesthetic Medicine

Treatment Of The Subpalpebral Region With Biomimetic Peptides

Linda Micheletti

Genital bio-stimulation with thermal stabilized hyaluronic acids usage in vulvo-vaginal atrophy

Elisabetta Garavaglia

Nose Reshaping A Multi-Layer Multi-Point Injection Technique

Alberto Liberti

Carboxytherapy: clinical and ultrasonographic study in patients with edematous fibrosclerotic panniculopathy.

Davide Ficco

Scar treatment LASER technologies and combined protocols

Nicolò Favuzza

Flushing Reduction Induced by Botulinum Toxin Type A

Andrea Curri

Ecodermocompatibility: the role of the skin microbiota (SKINECO)

Functional Cosmetics and Skin types

Maria Concetta Romano

The role of the microbiota in the gynecological sphere: the management of the genital mucosa

Monia Marturano

The Scalp Microbiota

Maria Concetta Romano

Imaging technologies and techniques supporting Aesthetic Medicine diagnostics

The applications of cutaneous imaging techniques in aesthetic dermatology and cosmetology

Ferial Fanian

Differential diagnosis in fillers

Silvana Giannini

3D reconstruction of the face and simulation of the result in aesthetic medicine. Personal experience

Antonino Araco

Ultrasound evaluation of skin and subcutaneous changes after treatment with Multiwave radiofrequency

Stefania Caldarelli

Ultrasound of the hypodermis

Domenico Feleppa

Confocal microscopy

Elvira Moscarella

Patient-doctor communication: from information to loyalty

Lecture

Antonio Magi

From guideline-based medicine to precision medicine

Gabriele Bellomo

The patient's motivation. The example of the chronic diabetic patient

Natalia Visalli

Communicating beauty: advertising in aesthetic medicine
